PRIMAL SUBSTANCE

Units of Consciousness, Morphogenetic Fields and Scalar Grids

1. ***Partiki, Partika and Particum:*** Smallest units of energy-substance. Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity. Operate as minute, perpetual motion fission/ fusion generators.

2. ***Partiki Grids:*** The fabric of morphogenetic field structure. Partiki units group to form interwoven Strands, then Grids of electro-tonal substance, out of which morphogenetic fields are fashioned. Out of a Unified Field of Partiki units, Partiki Grids form to create the frequency bands that make up dimensional fields and then to form individuated morphogenetic fields.

3. Partiki units continue to group or accrete upon the Partiki Grids, forming
A. *Keylons* – crystallizations of "frozen light" (standing scalar wave patterns and fixed points of tonal frequency), and
B. *Keylon Codes* – complex groupings of Keylons, which together form a crystalline template of light spectra, sound frequency and electro-magnetism that is the morphogenetic field Crystal Body– the Blueprint upon which matter and identity will manifest.

B.

A.

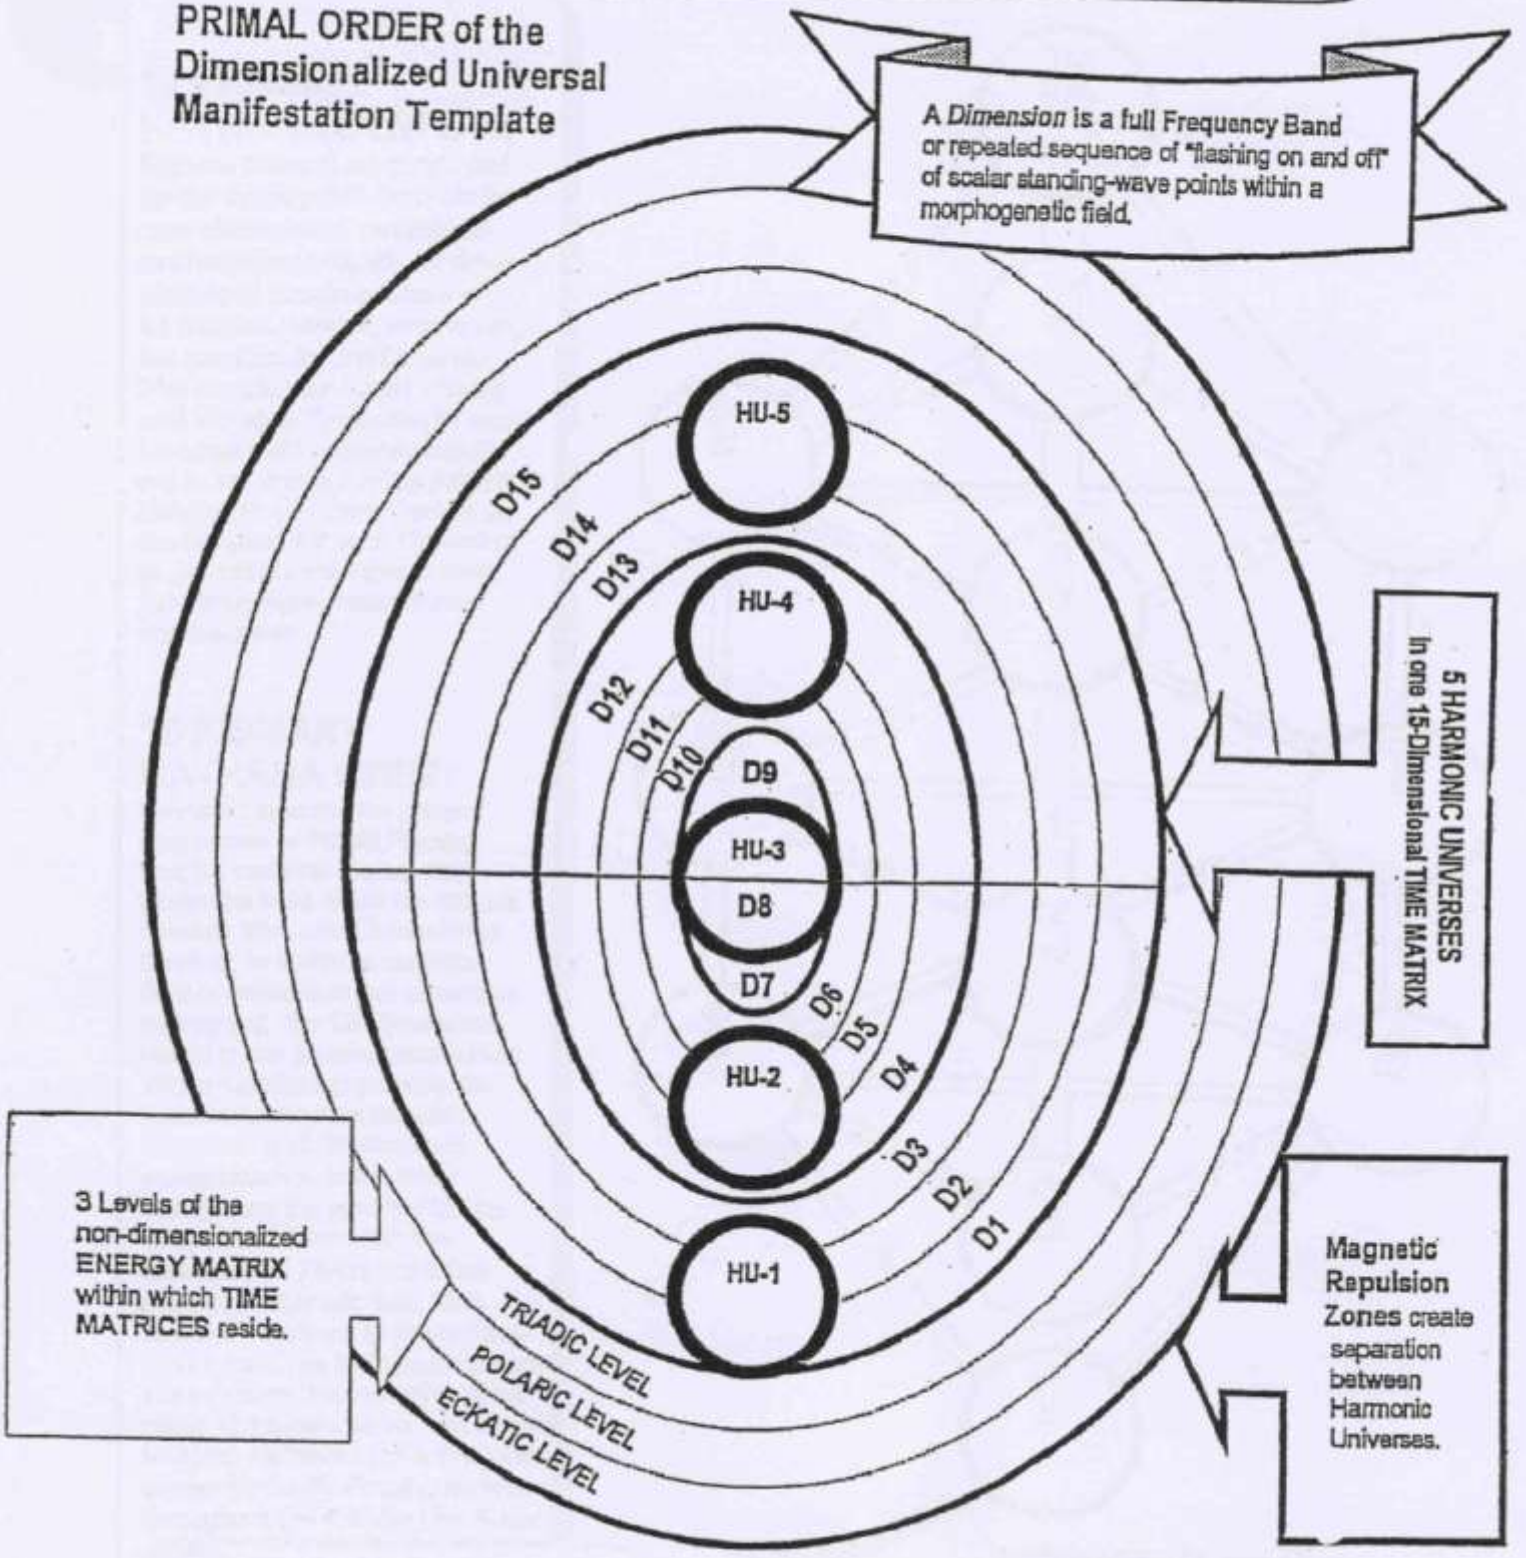

The **Morphogenetic Field** is made of interwoven **Partiki Grids.** The electro-tonal units of consciousness out of which Partiki Grids form create standing wave patterns – **scalar wave grids,** which hold the form of consciousness within dimensionalized manifestation. Morphogenetic Fields are thus **Scalar Grids,** that form in specific ordered interrelationship. Partiki Grids form upon the core *geometrical-mathematical* structure of the **Kathara Grid,** and so the Kathara Grid represents the *core Scalar Field* upon which form manifests.

Morphogenetic Fields govern the form of matter manifestation and the evolution of biology and consciousness. Morphogenetic Field mechanics thus hold the key to mastery of physical reality and Bio-Spiritual Evolution.

One 15-Dimensional Time Matrix with 5 Harmonic Universes

Structure of the Kathara Level-1 12-Tree Grid Core Scalar Template

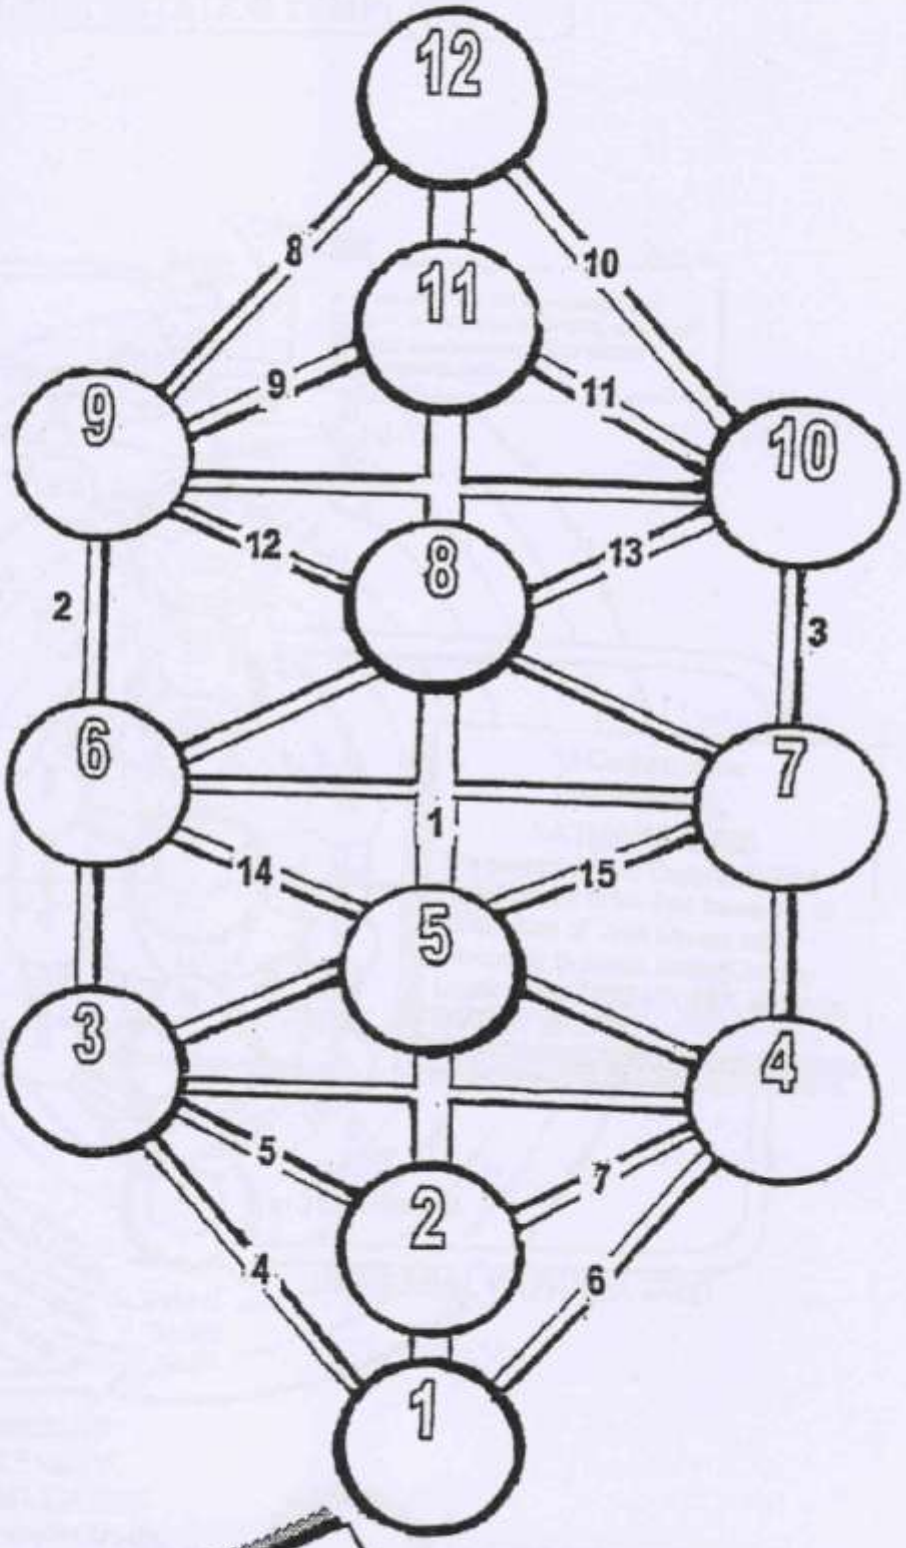

12 PRIMARY KATHARA CENTERS:

Kathara Centers are condensed Scalar Wave points that hold the core electro-tonal geometrical-mathematical program for dimensionalized structure. There are 12 Kathara Centers, each holding the program for one Dimension. The program for Partiki Phasing and Vibration-Oscillation for each Dimensional Frequency Band is set in the corresponding Kathara Center. The Kathara Centers set the template for each Dimension, to ground consciousness within the Holographic experience of manifestation.

15 PRIMARY KATHARA LINES:

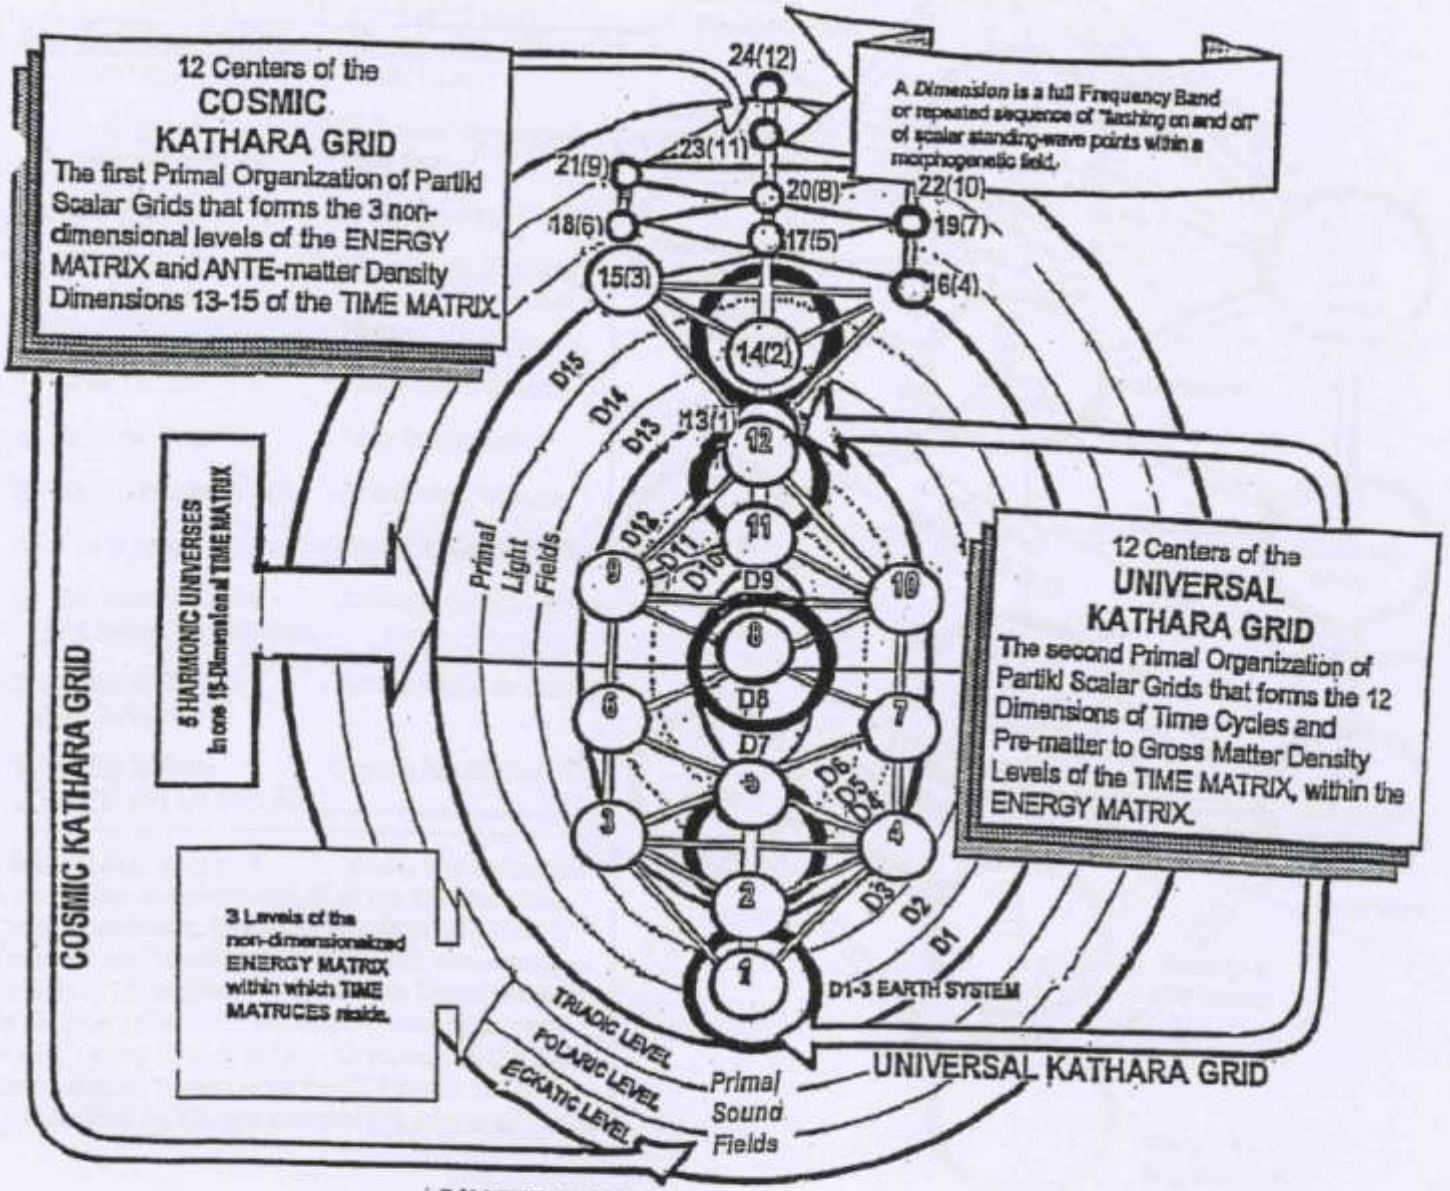

Kathara Lines are the primary sequences of Partiki Phasing that transmit the electro-tonal programs held within the Kathara Centers from one Dimension to another, to keep the continual flow of consciousness circulating throughout the 15-Dimensional levels of the Morphogenetic Field. When functioning properly, the Kathara Lines connect each Harmonic and Dimension of consciousness to the other and govern the synchronization of cycles of time within the Dimensional Fields and within the morphogenetic field, DNA and body rhythms of dimensionalized forms. The 3 Vertical Kathara Lines control the operation of the other 12 Kathara Lines. The Central Vertical Kathara Line is the control center for Partiki Phasing rhythms throughout the Kathara Line System.

The 12 SIGNET Star Crystal Seals of the Universal Kathara Grid. SIGNET SEALS are the core points of consolidated frequency corresponding to each Dimension that represent the first manifest arrangement of scalar waves created through the mathematical programs of the corresponding Kathara Centers. The Signets transmit the organizational programs upon which the Scalar Shields manifest. Each 3-Dimensional Scalar Shield manifests on the electro-tonal programs of 3 Signet Star Crystal Seals. Signet Seals keep the Harmonics of Matter Density separate from each other by keeping Partiki units phase-locked into their 3-dimensional electromagnetic domain.

When released, Signet Seals serve as Star Gates, allowing the Time Cycles and Matter Density Levels within the Time Matrix to merge and blend. Signet Seals are the central control points for Scalar Shield programming.

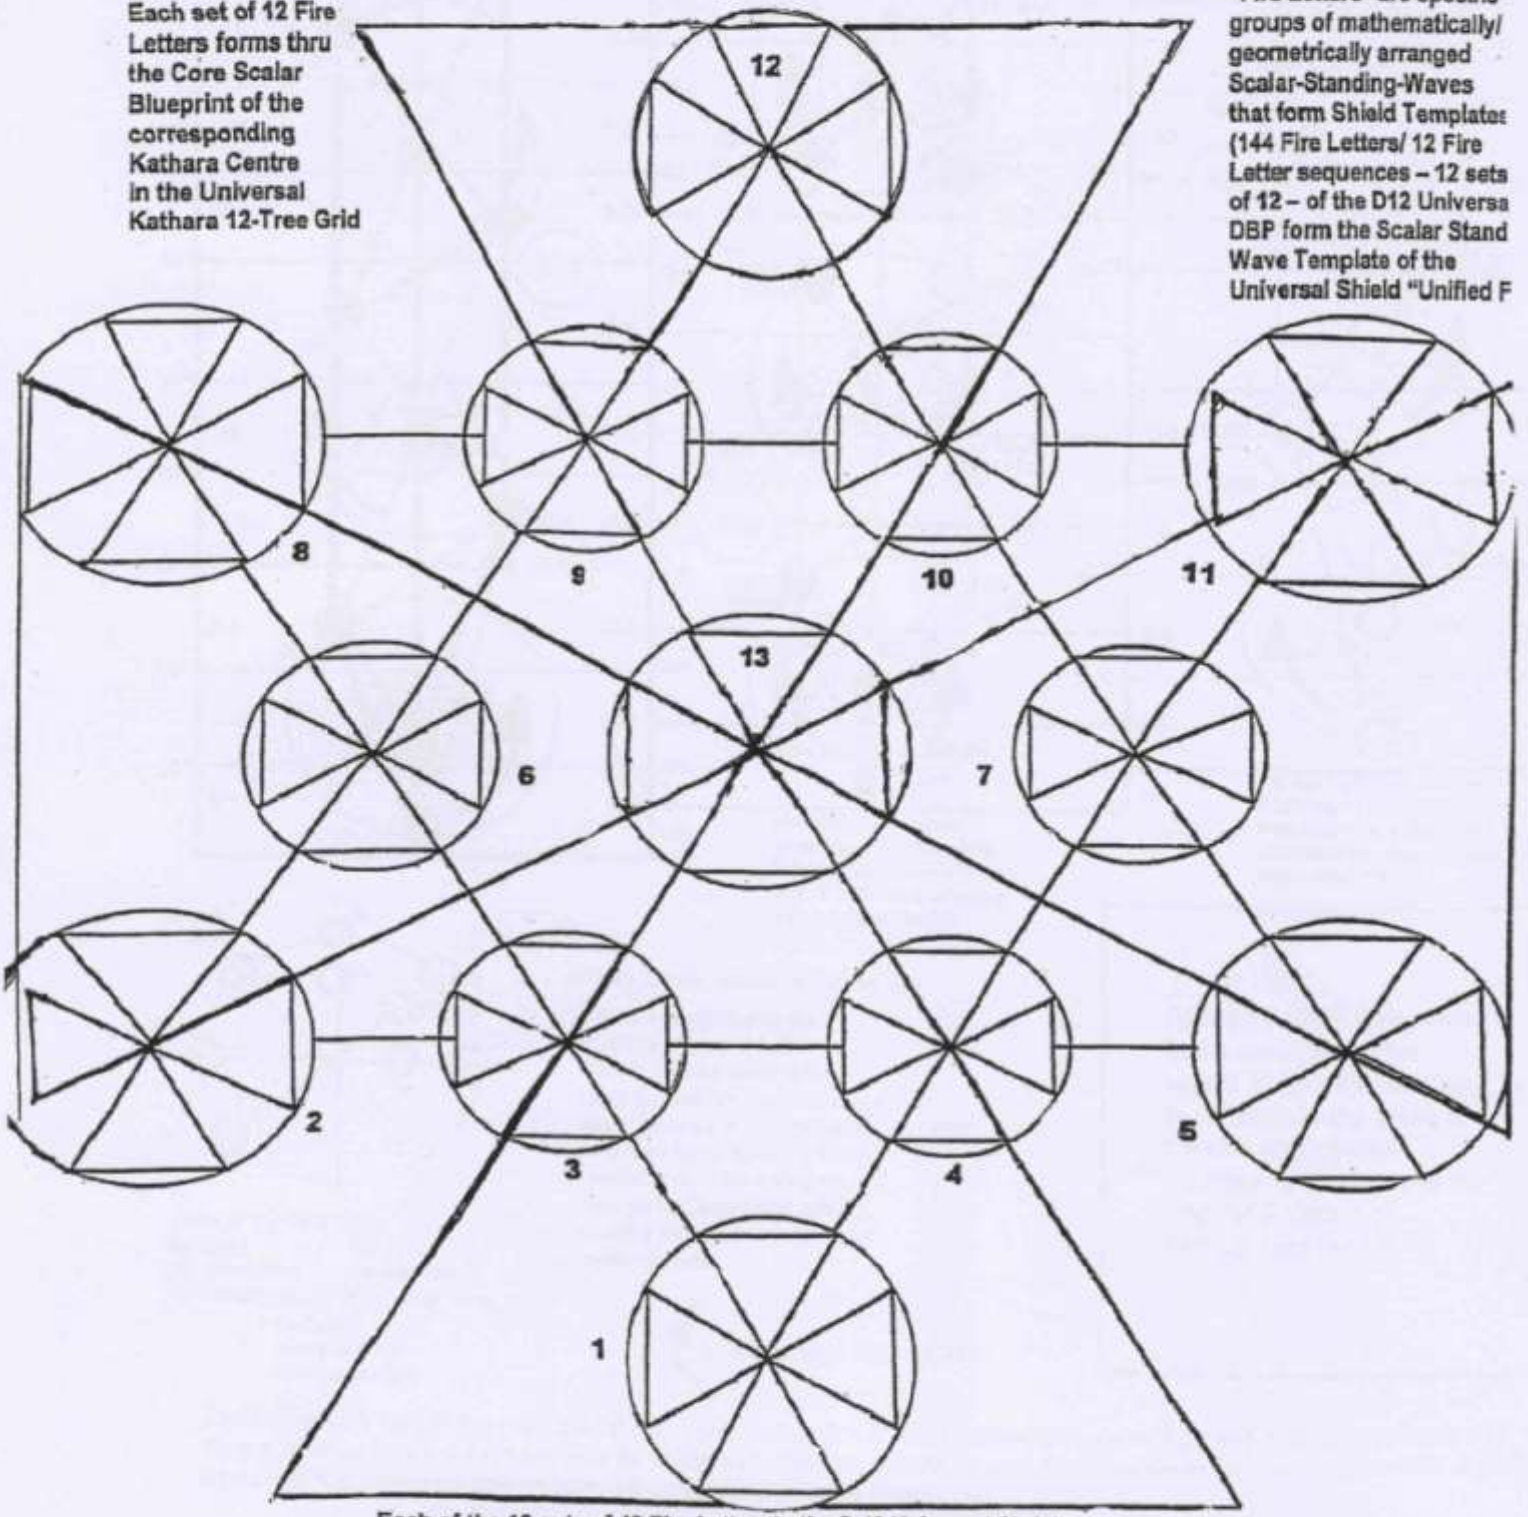

The structure of the macrocosmic Universal Templar Complex is replicated within the microcosmic structure of the personal Internal Templar Complex upon which 15-Dimensional Human Anatomy manifests.

Portals and Star Gates

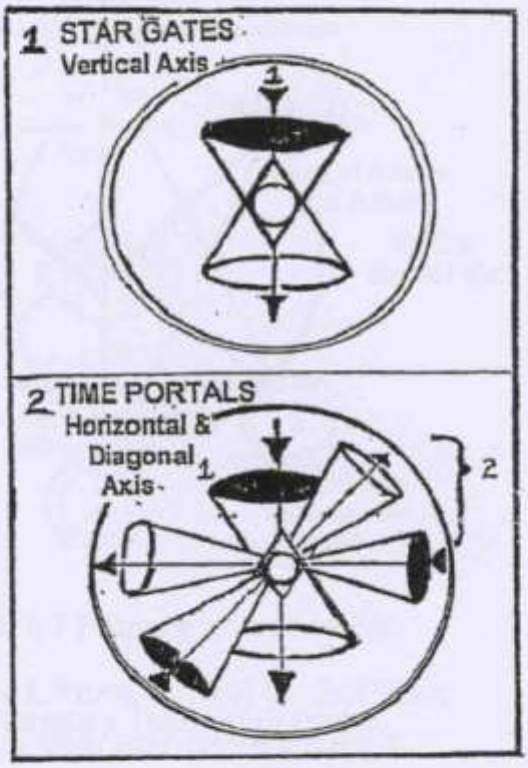

© 2000 Ashayana Deane

Star Gates and **Portals** are **pairs** of interconnected, **counter-rotating electromagnetic field spirals** that naturally exist within **suns** and **planetary bodies** and which also form at **fixed points of space** within the 5 Densities of the Universe where **Time Cycles** and **Time Continua** repeatedly pass through each other at fixed intervals. Star Gates and Portals exist as **Black and White Hole Pairs** that are connected at the **center point** by a scalar-frequency **Seal.** When Star Gates or Portals **activate**, the center Seal releases and the pair of counter-rotating electromagnetic spiral merge to form an interdimensional **Merkaba Field**, which allows for passage between various space-time coordinates.

Star Gates enter planets at **12 Planetary Signet Star Gate Sites.**

Vertical Axis spiral pairs form the **Star Gates** of the **Dimensional Lock System**, which permit passage between space-time locations in **multiple universes** and **Density Levels.**

TIME PORTALS

Horizontal and **Diagonal Axis** spiral pairs form the **Portals** of the **Time Portal System**, which permit passage between space-time locations in **one universe** and **one Density Level.**

Vertical Axis Star Gates link the Planetary, Galactic and Universal Templar Complexes through **5 Harmonic Universes** and their inherent 5 Matter Density Levels.

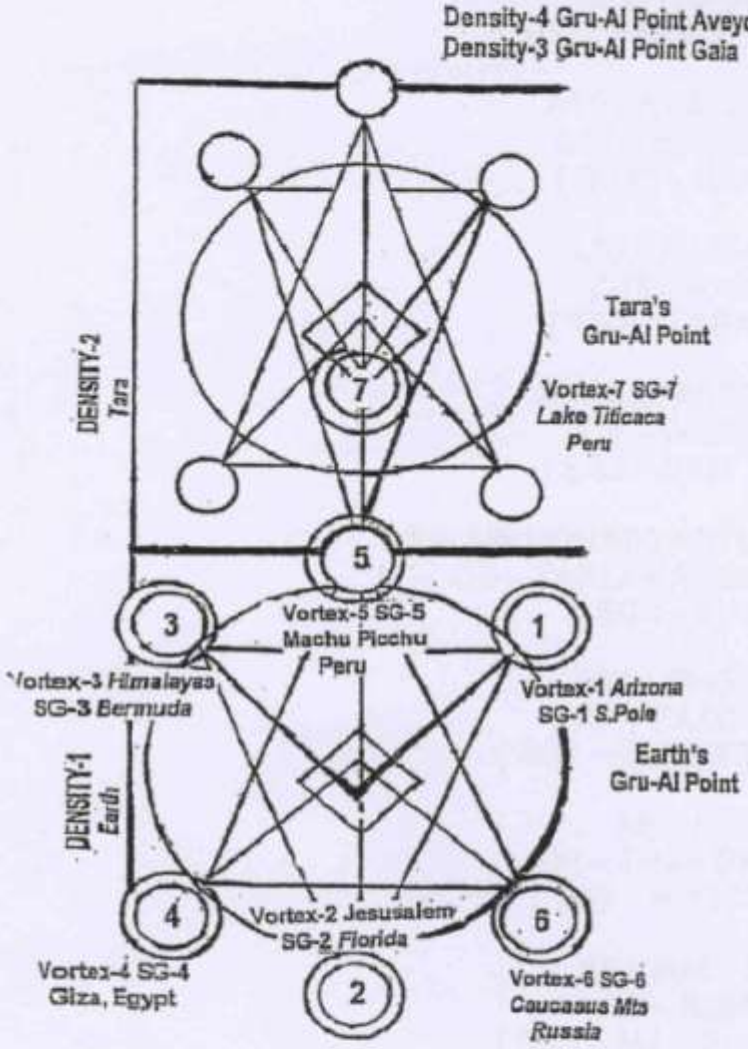

When Star Gates and Portals **activate**, the counter-rotating, electromagnetic spiral pair merges to form a **Merkaba Vehicle**; its center becomes a **"Form Constant"** Still Point that links various space-time locations directly to each other, creating a **trans-time bridge.**

The Planetary Bio-Feed Interface System

As the morphogenetic fields of species are interwoven into the larger morphogenetic field of the planet they inhabit, there is a direct energetic connection between the Kathara Grids of individuals and that of the planetary body. This connection between personal and planetary Kathara Grids is called the *Planetary Bio-feed Interface System* ™, - PBIS.

Universal Life Force Currents and the Embodied Shields, Signets and Kathara Grid

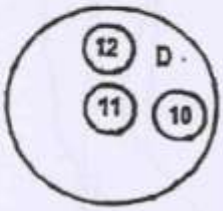

Hova Bodies are spherical scalar wave grids that form tissue capsules between each 3-Dimensional Harmonic of Manifestation.
Signets are the core points of consolidated frequency that hold the programs for the Scalar grid SHIELDS upon which the Hova Bodies manifest.

The Signets and the Shields are the core of Kathara Level-2 Crystal Seals Grid

As Universal Life Force Currents activate in the Kathara Grid, DNA, Chakras, Auric Levels & body, natural awakening of the dormant Scalar Shields occurs.

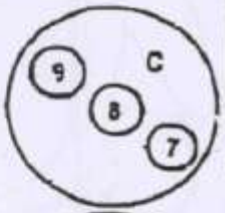

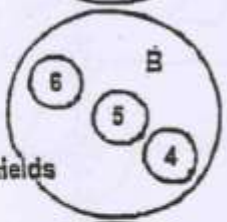

Shields

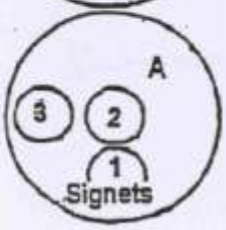

When activated, each SHIELD forms a rotating disc of scalar waves that emanate out from the body on a horizontal plane.

***Khundaray**- Three levels, **Primal Sound Field Currents** form **Energy Matrix**. *Eckatic, Polaric* and *Triadic* Currents of *Standing Sound Vibration.*
Kee-Ra-ShA'**- Three levels, **Primal Light Field Currents** emanating from Primal Sound Fields form First-Cause *Ante-matter* Density Dimensional Light Field of the ***Time Matrix.
Eckatic-*Blue Flame*-D-13 (Primal Ray from which the 2 other Primal Rays emerge)
Polaric-*Gold Flame*-D-14
Triadic-*Violet Flame*-D-15
***Maharata**- Three levels of frequency, D-10, D-11 and D-12, interwoven together to form the **D-12** Omni-Polar **Universal Christos Field** of *Pre-matter Density* Hydroplasmic **Liquid Light.**
***Antahkarana**- 9 levels of polarized **electro-magnetic** energy frequency that form **3 currents** of 3-dimensional energy called the **Universal Kundalini**, which form lower-frequency **dimensions 1-9**, creating *Etheric, Semi-Etheric, Gross-physical* Matter Densities.

Most powerful Heliotalic Currents Diagonal run; Heliotalic (pale silver – pastel) "Central Sun" Currents from the Ecka

A *Dimension* is a full Frequency Band or repeated sequence of "flashing on and off" of scalar standing-wave points within a morphogenetic field.

In **Level-1 Kathara Healing** we begin preparing the body and DNA Template to receive the higher dimensional Phase Currents by initiating transmission of the **Doradic Phase-1 Healing Current**- the *Pale Silver + Green + Violet* frequencies of dimensions *12, 11, 7 and 4.*

Through the 7th-Dimensional aspect of the **Teuric Shield** and 11th and 12th Dimensional aspects of the **Maharic Shield**, the **Doradic-1 Healing Current** allows for recoding and realignment of the **1st-4th**-Dimensional aspects of the **Nada** and **Alphi Hova Bodies**, the **Telluric Shield** and **Physical, Emotional** and **Mental Bodies** of Density-1, the **D-4** aspect of the **Doradic Shield** and **Astral Body**, the **1st-4th DNA Strand Templates**, the **1st-4th Chakras**, and the **1st-4th Sub-harmonics** of all Scalar Shields, DNA Templates, Hova Bodies and Chakras. Doradic-1 Healing Current is effective in clearing the **Karmic-Miasmic imprint** from the **Density-1 Time Cycle incarnations** and the beginning of Density-2 Time Cycle incarnations.

The NATURAL Spin Ratio between the Top (Male-Electrical-CW-Anti-particle) Density-4 Christiac Merkaba Spiral and the Bottom (Female-Magnetic-CCW-Particle) Density-5 Rishiac Merkaba Spiral is 33 1/3-CW-Male-Top to 11 2/3-CCW-Female-Bottom. The 33 1/3-CW/11 2/3-CCW Spin Ratio creates the NATURAL ratio of 33 2/3-Parts-Electrical Anti-Particles to 11 2/3-Parts Magnetic Particles, (or 33 1/3 energy expansion/oscillation/thrust to 11 2/3 energy contraction/vibration/draw) within earth's Density-1 Matter Base, the organic Divine Blueprint of Density-1. This Christiac Internal Merkaba Vehicle Spin Ratio creates a self-sustaining, Eternal, Matter-base that is MORE ELECTRICAL than Magnetic, which perpetually re-fuels itself via natural circulation of the *Maharata*, *Kee-Ra-ShA* and *Khundaray* Universal Life Force Currents.

The "In-Breath" & "Out-Breath" of God and the Christos Seed Atom

Counter Rotating Christiac Merkaba Spiral Sets

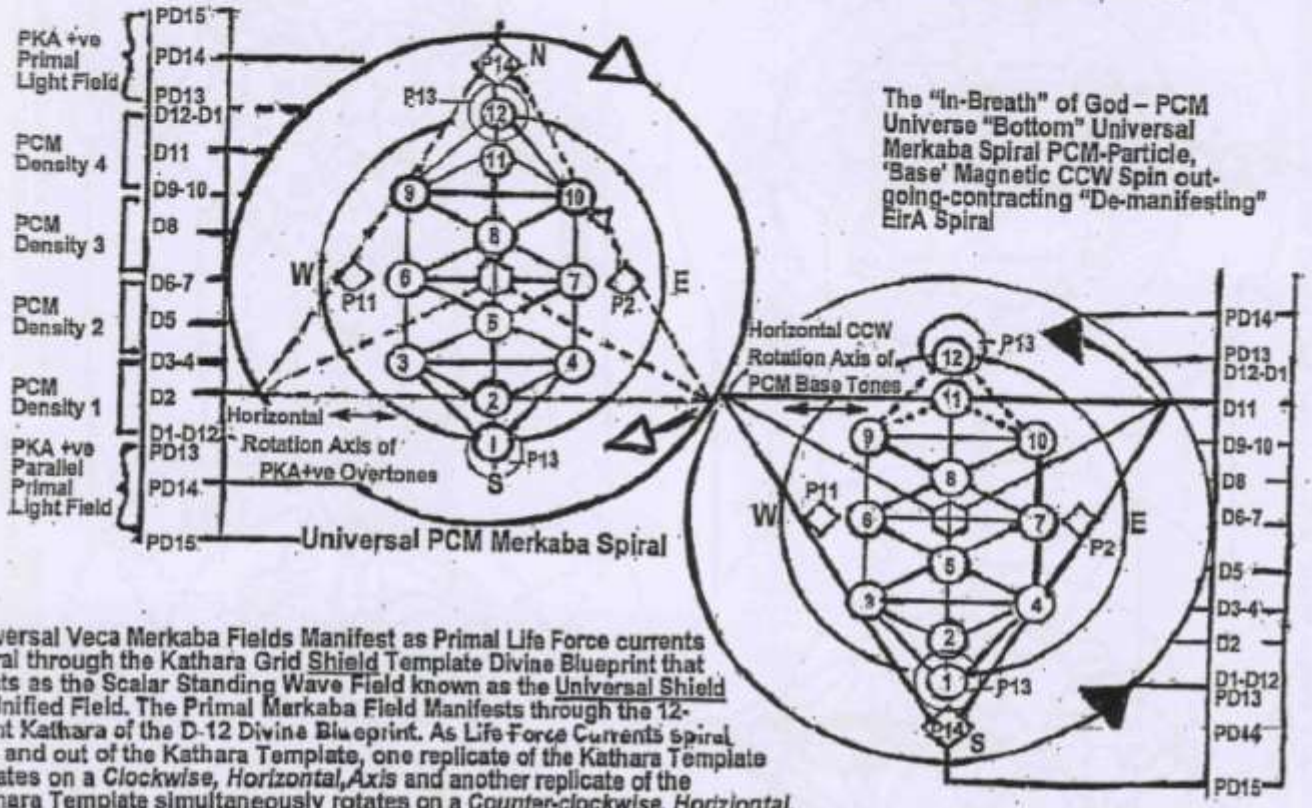

THE Bi-VECA Merkaba

All things manifest possess Merkaba Fields. In all Natural Christiac Eternal Life Merkaba Spiral Sets, one Spiral Spins *Clockwise* circulating Life Force into Manifest Expression, while the other Spiral simultaneously spins *Counter-clockwise* circulating Life Force back out of Manifestation in return to God-Source, for renewal. The Merkaba Spiral Sets are Ordered Wave Form Structures through which Consciousness, as Primal Life Force Current, *perpetually circulates*, into and out of Manifestation.

The "Out-Breath" of God – PCM Universe "*TOP*" Universal Merkaba Spiral PKA+ Anti-particle, Base Electrical Clockwise Spin, "*Incoming-Expanding*", Manifesting ManA Spiral

Universal Veca Merkaba Fields Manifest as Primal Life Force currents Spiral through the Kathara Grid Shield Template Divine Blueprint that exists as the Scalar Standing Wave Field known as the Universal Shield or Unified Field. The Primal Merkaba Field Manifests through the 12-Point Kathara of the D-12 Divine Blueprint. As Life Force Currents spiral Into and out of the Kathara Template, one replicate of the Kathara Template Rotates on a *Clockwise, Horizontal, Axis* and another replicate of the Kathara Template simultaneously rotates on a *Counter-clockwise, Horizontal, Axis*, while the Kathara Template remains fixed in the Universal Shield. The Horizontal Counter-rotations of the Kathara Template replicas within the Universal Shield create the Sets of Counter Rotating Life Force Spirals that are Merkaba Fields.

The 2 Counter-rotating spirals in a Christiac Merkaba Field Spiral Set are linked together through the *Christos Seed Atom* that is Stationed within the *AzurA* Kathara Grid Centre Point.

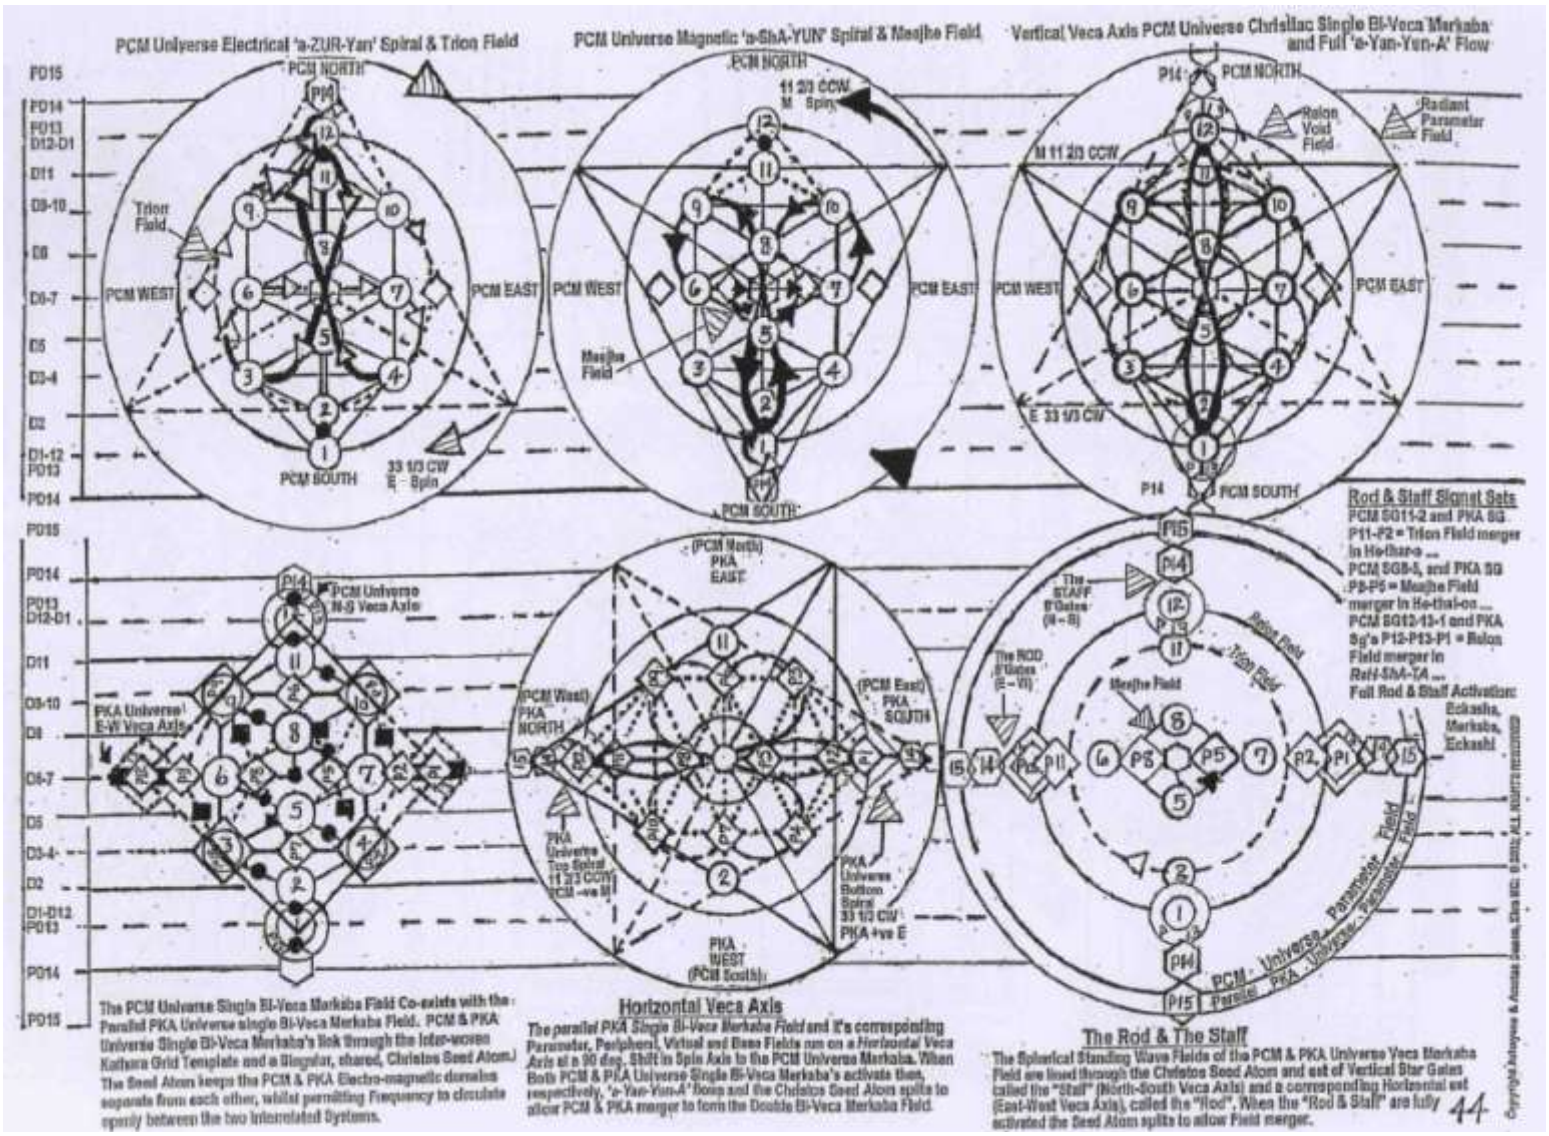

The *Christos Seed Atom* opens and closes at specific set intervals to allow Life Force to return to Source ... while new Life Force enters the *Seed Atom* for renewed Manifestation.

The 2 Inter-woven Merkaba Spirals also rotate on a *Vertical Axis* from the *Seed Atom Centre Point*. The Vertical Axis rotation of a Merkaba Field creates the *Parameter Field* or *Radiant Body* within the D13-D15 Primal Light Fields.

[NOTE: The Merkaba Field Spiral Set is called the *Actual Field*, the Universal Shield Divine Blueprint is the *Base Field* and the Primal Light *Radiant Body* is the *Parameter Field*]

A –vePCM Universe Single Bi-Veca D-12 Christiac Merkaba Field

The PCM Universe Single Bi-Veca Merkaba Field Co-exists with the Parallel PKA Universe single Bi-Veca Merkaba Field. PCM & PKA Universe Single Bi-Veca Merkaba's link through the Inter-woven Kathara Grid Template and a Singular, shared, Christos Seed Atom. The Seed Atom keeps the PCM & PKA Electro-magnetic domains separate from each other, whilst permitting Frequency to circulate openly between the two Interrelated Systems.

Horizontal Veca Axis

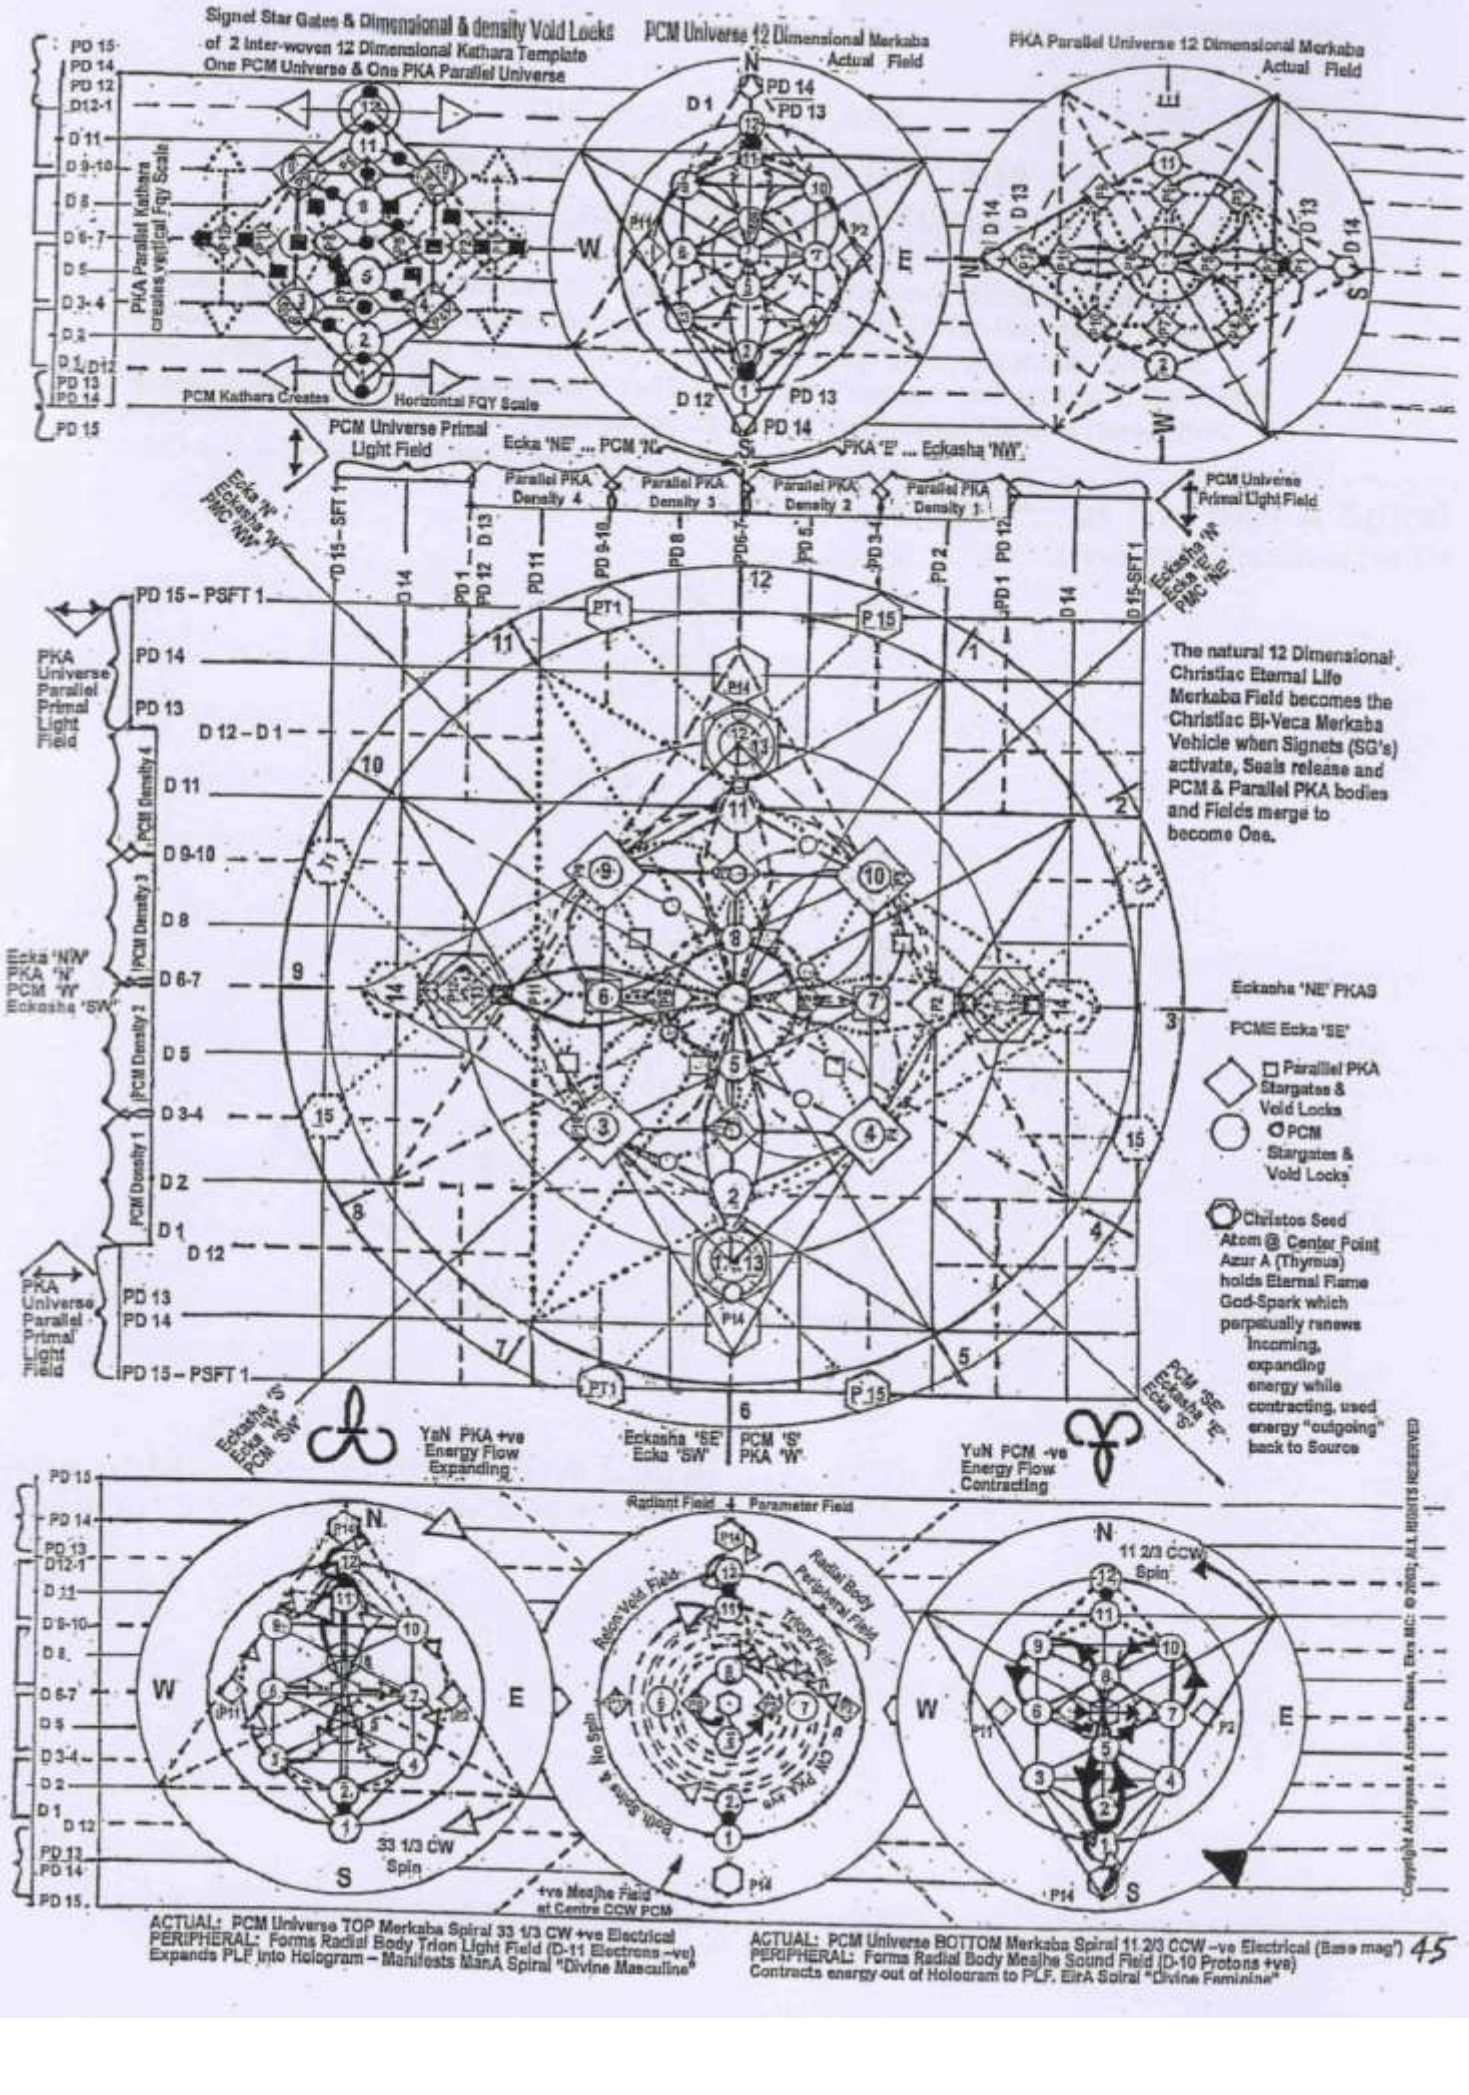

The parallel PKA Single Bi-Veca Merkaba Field and it's corresponding Parameter, Peripheral, Virtual and Buna Fields run on a *Horizontal Veca Axis* at a 90 deg. Shift in Spin Axis to the PCM Universe Merkaba. When Both PCM & PKA Universe Single Bi-Veca Merkaba's activate then, respectively, *'e-Yan-Yun-A'* Boom and the Christos Seed Atom splits to allow PCM & PKA merger to form the Double Bi-Veca Merkaba Field.

The Rod & The Staff

The Spherical Standing Wave Fields of the PCM & PKA Universe Veca Merkaba Field are lined through the Christos Seed Atom and set of Vertical Star Gates called the "Staff" (North-South Veca Axis) and a corresponding Horizontal set (East-West Veca Axis), called the "Rod". When the "Rod & Staff" are fully activated the Seed Atom splits to allow Field merger.

Universal Veca Eternal Life Christiac Merkaba Fields

In Universal Veca Systems both the Particum (PCM) and the Parallel Partika (PKA) Universe have two sets of 2 large *Counter-rotating* Merkaba Spirals; one set manifesting through the 12-Point Primal Kathara Template, and one set manifesting through the 12-Point Density Kathara Template for each Universe. The two larger Merkaba Spiral Sets of the Primal Kathara are called *Primal Bi-Veca Merkaba Fields*, the smaller Merkaba Spiral Set within each Primal Bi-Veca Merkaba Field is called a *Universal Single Bi-Veca Merkaba Field.* The two Primal Bi-Veca Merkaba Fields, and their inherent Universal Single Bi-Veca Merkaba Fields all exist within a larger Counter-rotating Merkaba Spiral Set called an *Eckasha Core Tri-Veca Merkaba Field.* Each Primal Bi-Veca and Universal Single Bi-Veca Merkaba Field contain within them 12 smaller Dimensional Merkaba Spiral Sets that group into sets of 3 Spiral Sets called *Density Bi-Veca Merkaba Fields* through which 3-Dimensional Harmonic Universes and Dimensionalized Primal Light and Sound Fields are formed. Together, the inter-woven Primal Bi-Veca, Universal Single Bi-Veca, Density, Dimensional and Eckasha Tri-Veca Merkaba Fields comprise the *Christiac Merkabic Circulatory System* through which the Perpetual Motion – Eternal Life First Creation is kept in Motion via continual circulation Of God-Force Consciousness in the form of Electro-magnetic Primal Life Force Currents.

The Lotus Bud Breath & the AzurA Lotus Flow

(1st 6 of 24 ManA Breaths also called Monadic Breathing)

ManA Lotus Breaths 7 – 24

ACTIVATING THE 'LOTUS SEED'

Technique 1: The "Lotus Bud" Breath

1. Complete Technique 8, Part A or B, before commencing the "Lotus Seed" Activation sequence.
2. Breathe easily for a few moments, while focussing your attention on a large ball of Heliotalic energy located way out in the Universe at the Ecka Level (Density 6). The ball of Heliotalic Energy looks like a swirling mass of silvery, pastel, rainbow coloured hues. After August 15th, 2003, the Heliotalic Ball lies on a Central Vertical Axis (straight up above the Pineal Gland).
3. Forcefully INHALE, pulling the ball of silvery pastel rainbow frequency down the vertical Heliotalic line, into the AzurA Point, just below the Thymus.
4. Hold this Inhale breath while imagining that the ball of Heliotalic frequency now stored in the AzurA separates out into 6 smaller balls of silvery pastel rainbow coloured energy.
5. Forcefully EXHALE the six balls of Heliotalic energy outwards, simultaneously, in six directions; one vertically up, one vertically down, and 4 outwards at 45 degrees to the vertical axis of your body, to a distance of about 1 inch from the surface of your body (the limit of your Etheric body "skin").
6. Hold the breath briefly while imagining, or feeling, the 6 balls of silvery pastel Heliotalic frequency stationed in your Etheric body ... and ...
7. INHALE forcefully, bringing the 6 balls of Heliotalic energy back into the AzurA.
8. REPEAT according to inner guidance, to build Heliotalic frequency in the AzurA and Etheric body field.

Technique 2a: The First 6 ManA Breaths

1. From the final Inhale of the "Lotus Bud" breath, hold the silver pastel rainbow ball of Heliotalic frequency at the AzurA, momentarily ...
2. Breathe easy for a few moments, whilst once again imagining the large ball of pale silvery rainbow energy, separating out into 6 smaller balls of energy.
3. Prepare for a sequence of 6 rapid INHALE: EXHALE breaths. During each breath, visualise or imagine pushing the 6 balls of energy out, on each exhale, through each of the 6 Density Merkaba grids stationed at D4, D7, D10, D13 and the Ecka D1 and Ecka D4 Void. Push the energy balls in 6 directions, simultaneously, as before (1 vertically up, 1 vertically down, and 4 outwards at 45 degrees to the vertical axis of your body).
4. Breathe the 6 breaths. Note: in the earliest stages do this gently/ slowly, before adopting a more rapid and forceful breathing technique.
5. On the sixth and final INHALE, draw the 6 balls of energy back into the Azur-A ...

Technique 2b: The Second Sequence of 6 ManA Breaths

1. From the final Inhale of the first 6 breaths, returning the ball of pale silvery rainbow energy to the Azur-A, EXHALE pushing the large ball of energy from the Azur-A down to the E-Umbi Point just below the navel.
2. Repeat steps 2-5 above, drawing the 6 balls of pale silvery rainbow energy, on the six and final breath back into the E-Umbi ...

Technique 2c: The Third Sequence of 6 ManA Breaths

1. From the final Inhale of the second 6 breaths, returning the ball of pale silvery rainbow energy to the E-Umbi EXHALE pushing the large ball of energy up from the E-Umbi to the Rajna Point at the Pineal.
2. Repeat steps 2-5 above, drawing the 6 balls of pale silvery rainbow energy, on the sixth and final breath, back into the Rajna Point at the centre of the Pineal.

Technique 2d: The Fourth Sequence of ManA Breaths

1. From the final inhale of the third 6 breaths, returning the ball of pale silvery rainbow energy to the Rajna Point, EXHALE pushing the large ball of energy down to the Mahadra Point at the centre of Earth's Core.
2. Repeat steps 2-5 above, drawing the 6 balls of pale silver energy, on the sixth and final breath, back into the Mahadra Point at Earth's Core, "popping" the Bottom Spiral Universal Merkaba Seal 14.
3. Exhale gently, INHALE and forcefully EXHALE pushing the pale silvery rainbow ball of energy UP through the LE-Te U-A, Kathara Centre Pineal, and on up to Chakra 14, 36" above the head, "popping" the Top Spiral Merkaba Seal 14.
4. Breath easy, spending a few minutes to feel the circulation of energy throughout the Lotus petals formation in the Density Fields around you ....

NOTES:

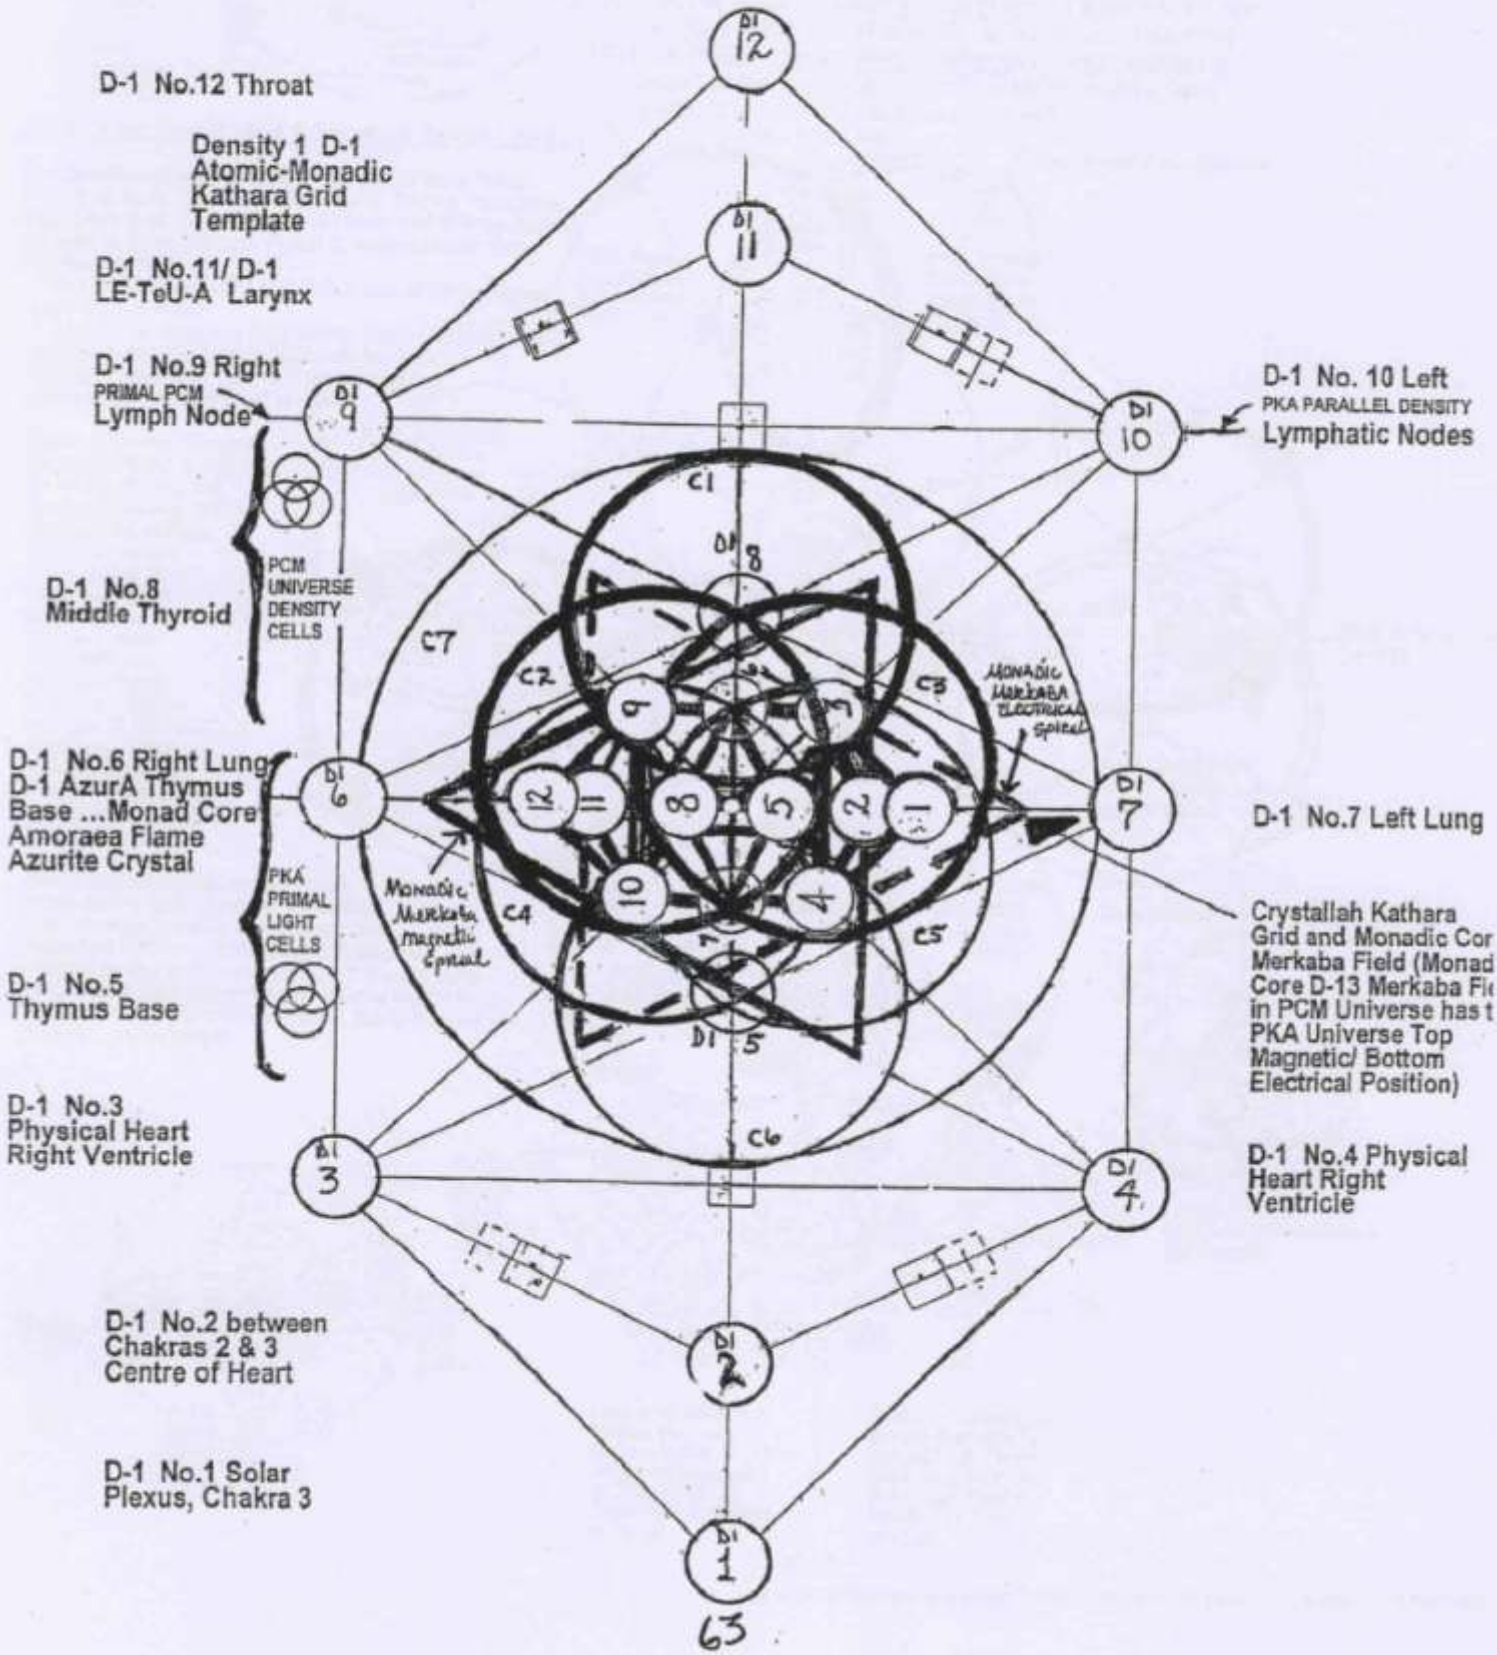

For Hetharo the entire sequence above will be performed completely, just once. All participants will continue to breathe with and through the 6 point axis of the Lotus petal grid (Like a 6 point Star) throughout the 11:11-12:12 period, visualising, as far as possible, that each person is going to the centre of the Temple of Khemalohatea of Inner Earth, being greeted by Eieyani, etc. etc.

QUESTIONS:

1. After completion of each group of 6 breaths, the six axis grid is effectively shifted to the next centre (E-Umbi, Rajna, Mahadra) along with the large ball of heliotalics.
2. Each of the 6 Exhale breaths is used to push the 6 small balls, <u>simultaneously</u>, outward on each line of the 6 line axis (one ball per line). The balls are NOT pulled back to the beginning point after each breath but remain stationed at first Density 1, then Density 2, etc. until reaching Density 6 before being pulled back, simultaneously, to the beginning point.

Formula for Eternal Light & Perpetual Motion Energy

The Christiac Eternal Life Merkaba Thrust/ Spin Ratios: Ecka God Seed Thrust Quotient = ONE 360deg. circulation. Replicates & projects 360deg. of Thrust and 360deg. Thrust remains in Ecka. 360deg. Thrust is projected into Veca Manifestation as:

* 4 Veca Quadrant D-13 Monadic Cores of 90deg. thrust each (90 x 4 = 360)
* Each Veca Quadrant D-13 90deg. Thrust Monad Core polarizes into 45 Neutral Charge Reions, 33 1/3 +ve charge Trions & 11 2/3 –ve charge Meajhons setting the Creation Field in motion.

TheD-12 Divine Blueprint Quadrant Shields manifest as 21 2/3 differential available energy as the Vortex Virtual Field Manifest Vortex Source, the 33 1/3 Trion +ve Field Manifests as the Vortex Actual Field Bottom Merkaba Spiral at 11 2/3 CCW-ve and the 11 2/3 CCW Meajhe-ve Field Manifests as the Vortex Actual Field Top Merkaba Spiral at 33 1/3 CW +ve.

Using these Christiac (of the Krist) ratios and specific Angular & Polarity relationships inherent to the Krist Code, a Perpetual Motion – Eternal Light System is created as the 11 2/3 –ve and 33 1/3 +ve currents perpetually pass through each other at the TriVeca Fission-Fusion Point and replicate the 45 Reion Field Charge ... indefinitely.

Universal Androgynous Krist-Chrystallah Bi-Veca Merkaba Fields

The syncopated, CW & CCW rotation of the Ecka Universal Shield generates the Androgynous Bi-Veca Merkaba Fields of the Veca Universe Primal Light-Sound Fields and D-12 Universal Density Merkaba Field Divine Blueprint – the D-12 Universal Veca Merkaba Fields of the PCM-particle and Parallel PKA Anti- particle Universes set the base structural orientation for all 3-Dimensional Transharmonic Density Merkaba Fields within the PCM and PKA Universes. Both PCM & PKA Universes have a "male" Krist D-12 Merkaba Field generated by an internal "female" Chrystallah Monadic Core Merkaba Field and both PCM & PKA D-12 Universal Merkaba Fields have a "Gender Fin" alignment that represents the "start spin" position for Top and Bottom Merkaba Spirals.

Both PKA & PCM Universes have a D-12 Universal Krist "male" Merkaba Field with a D-13 Crystallah "female" Monadic Core Merkaba Field & a "Gender Fin" orientation that sets synchronisation of spins for the Density & Dimen" Merkaba Fields

The PKA-Antiparticle Parallel Universe D-12 Universal Krist Merkaba Field has an EirA-Top Spiral of 11 2/3 CCW, -ve Base spin, a ManA Bottom Spiral of 331/3 CW, +ve, Base Spin & an Internal Crystallah Monadic Core Merkaba Field with an 11 2/3, CW, +ve, ManA Spiral & 331/3, CCW, -ve, EirA Spiral. The PKA Universe D-12 Merkaba Field has a "mal Gender "fin" orientation with the 331/3, CW, +ve, Bottom Spiral in the *Shield Clock* – 12, Start Position, Bottom ManA Spiral in "Fin to Rear" position & Top EirA Spiral in *Shield Clock* – 6, "Fin Front", Start Spin position.

The Parameter Field Divine Blueprint D-12 Shield spins in the opposite direction of the Gender Fin orientation Shield Clock. PCM Universe CCW = PCM D-12 Divine Blueprint Shield CW Spin. PKA Universe CW Shield Clock = PKA D-12 Divine Blueprint Shield CCW Spin.

THE PCM PARALLEL UNIVERSE

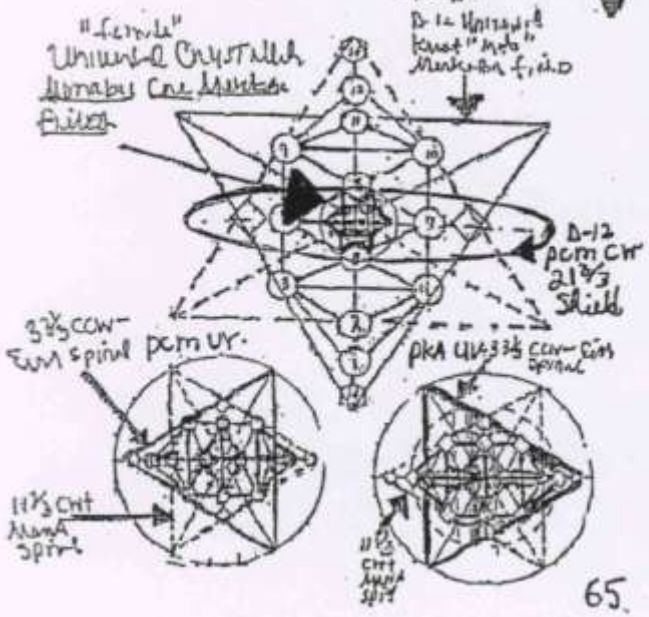

D12 Universal Krist Merkaba Field has a ManA Top Spiral of 33 1/3 CW+ve Base Spin, an EirA Bottom Spiral of 11 2/3 CCW-ve Base Spin and an Internal Chrystallah Monadic Core Merkaba Field with a 33 1/3CCW-ve EirA Spiral and 11 2/3CW+ve ManA Spiral.

The PCM Universe D-12 Merkaba Field has a "female" Gender Fin Orientation with the 11 2/3CCW-ve Bottom Spiral in the Shield Clock 6 Start Spin Position, Bottom EirA Spiral in "Fin Front" position, and Top ManA Spiral in Shield Clock 12 "Fin Rear" position.,

PKA 'MALE' "GENDER FIN"

The Gender Fin orientation of the D12 Krist Universal Merkaba Field sets the same orientation for the Density Merkaba Fields & determines the Gender Fin alignment for the Dimensional Merkaba Fields Gender Polarity Spirals.

The "In-Breath" & "Out-Breath" of God and the Christos Seed Atom
Counter Rotating Christiac Merkaba Spiral Sets & Radial Bodies

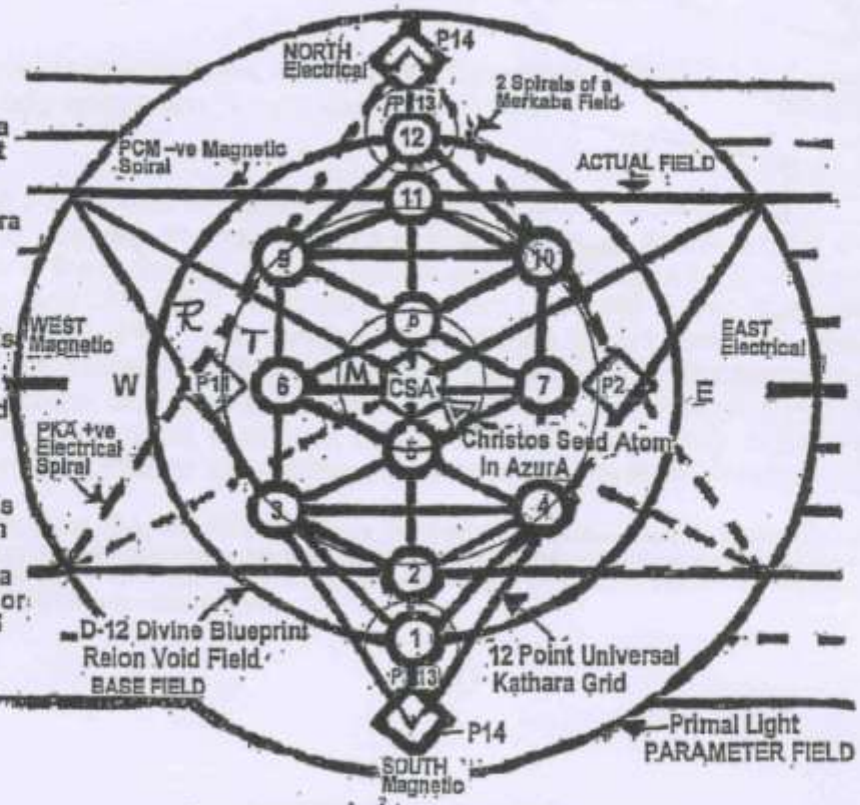

All things manifest possess Merkaba Fields. In all Natural Christiac Eternal Life Merkaba Spiral Sets, one Spiral Spins *Clockwise* circulating Life Force into Manifest Expression, while the other Spiral simultaneously spins *Counter-clockwise* circulating Life Force back out of Manifestation in return to God-Source, for renewal. The Merkaba Spiral Sets are Ordered Wave Form Structures through which Consciousness, as Primal Life Force Current, *perpetually circulates*, into and out of Manifestation.

The 2 Counter-rotating spirals in a ristiac Merkaba Field Spiral Set e linked together through the *Christos Seed Atom* that is Stationed within the *AzurA* Kathara Grid Centre Point.

The *Christos Seed Atom* opens and closes at specific set intervals to allow Life Force to return to Source ... while new Life Force enters the *Seed Atom* for renewed Manifestation.

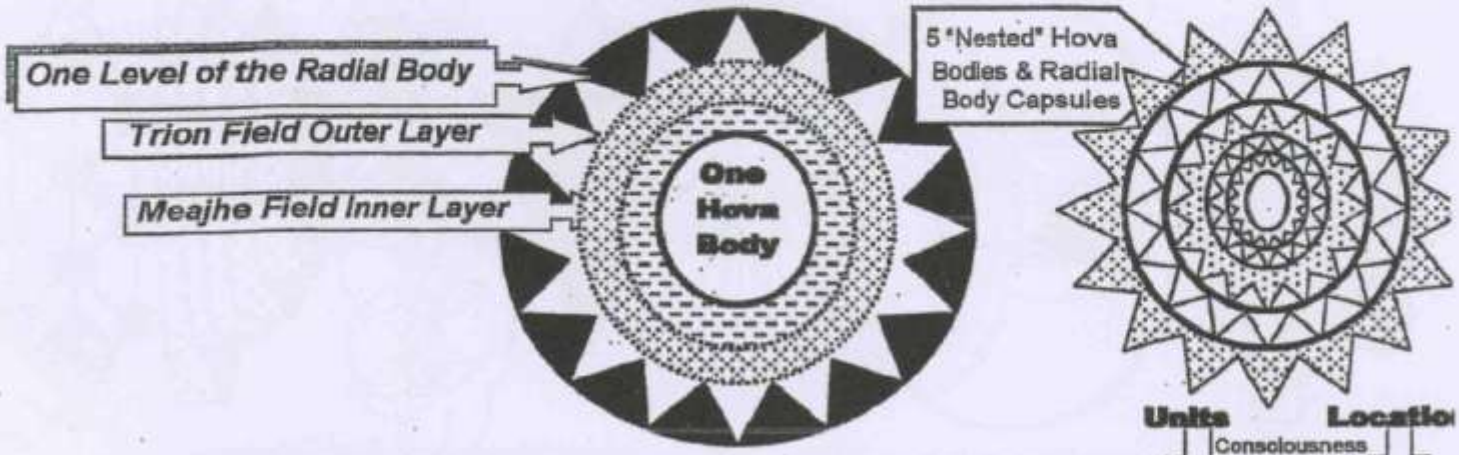

The 2 Inter-woven Merkaba Spirals also rotate on a *Vertical Axis* from the *Seed Atom Centre Point*. The Vertical Axis rotation of a Merkaba Field creates the *Parameter Field* or *Radiant Body* within the D13-D15 Primal Light Fields.

[NOTE: The Merkaba Field Spiral Set is called the *Actual Field*, the Universal Shield Divine Blueprint is the *Base Field* and the Primal Light *Radiant Body* is the *Parameter Field*]

NATURAL ASTRAL BODY ANATOMY

The "Astral Body" is an electromagnetic replica imprint of the 3-dimensional Density-1 body that forms from the Primal Life Force Fields of the *Eiros* (D-7, D-5 Eiron Field), *EirA* (D-10 Meajhe Field), *ManA* (D-11 Trion Field) and *ManU* (D-12/13 Reion Field) of the combined Density-1 and Density-2 Radial Bodies. The Astral Body vehicle activates when the Dimensional-Lock Seals (D-Lock Seals) between the Density-1 D-3 Mental Body open to the Density-1 Radial Body and the Density-2 Dimensional-Lock Seals between the Density-2 D-4 "Astral" body and the Density-2 Radial Body open to each other, allowing the Density-1 D-3 Mental body consciousness to expand into the Density-2 D-4 frequency bands. The Density-1 D-3 consciousness expands to Density-2 D-4 through release of the Dimensional-Lock-3 Seal; from the D-4 focus of consciousness, the Density-1 D-3 Mental-Atmospheric Plane one full dimension below the station of consciousness is perceived as the "solid" holographic field. The Density-1 D-3 consciousness continues expansion to the Density-2 D-5 frequency bands, through release of Dimensional-Lock-4 Seal; from the D-5 focus of consciousness, the D-4 "Astral" Plane, or *Density-2 Atomic Plane*, is perceived as the "solid holographic" field. The ability to "Astral Project" develops with progressive activation of Strands 4 and 5 of the DNA Template, through which the Dimensional-Lock Seals that keep the D-3 Mental body consciousness confined to one Density and space-time vector release, allowing the Density-1 D-3 Mental Body "ego" awareness to traverse other regions of space-time and density. As the Strand-4 DNA Template naturally activates, the abilities of coherent dream recall, lucid dreaming and simultaneous dreaming first emerge, as the D-3 Mental Body consciousness first expands into the Density-1 Radial Body levels. As Strand-4 activation continues and the D-3 Mental Body moves into D-4 frequency, the D-3 Mental Plane comes into solid, more coherent view, followed by the D-4 Astral Plane with Strand-5 activation.
